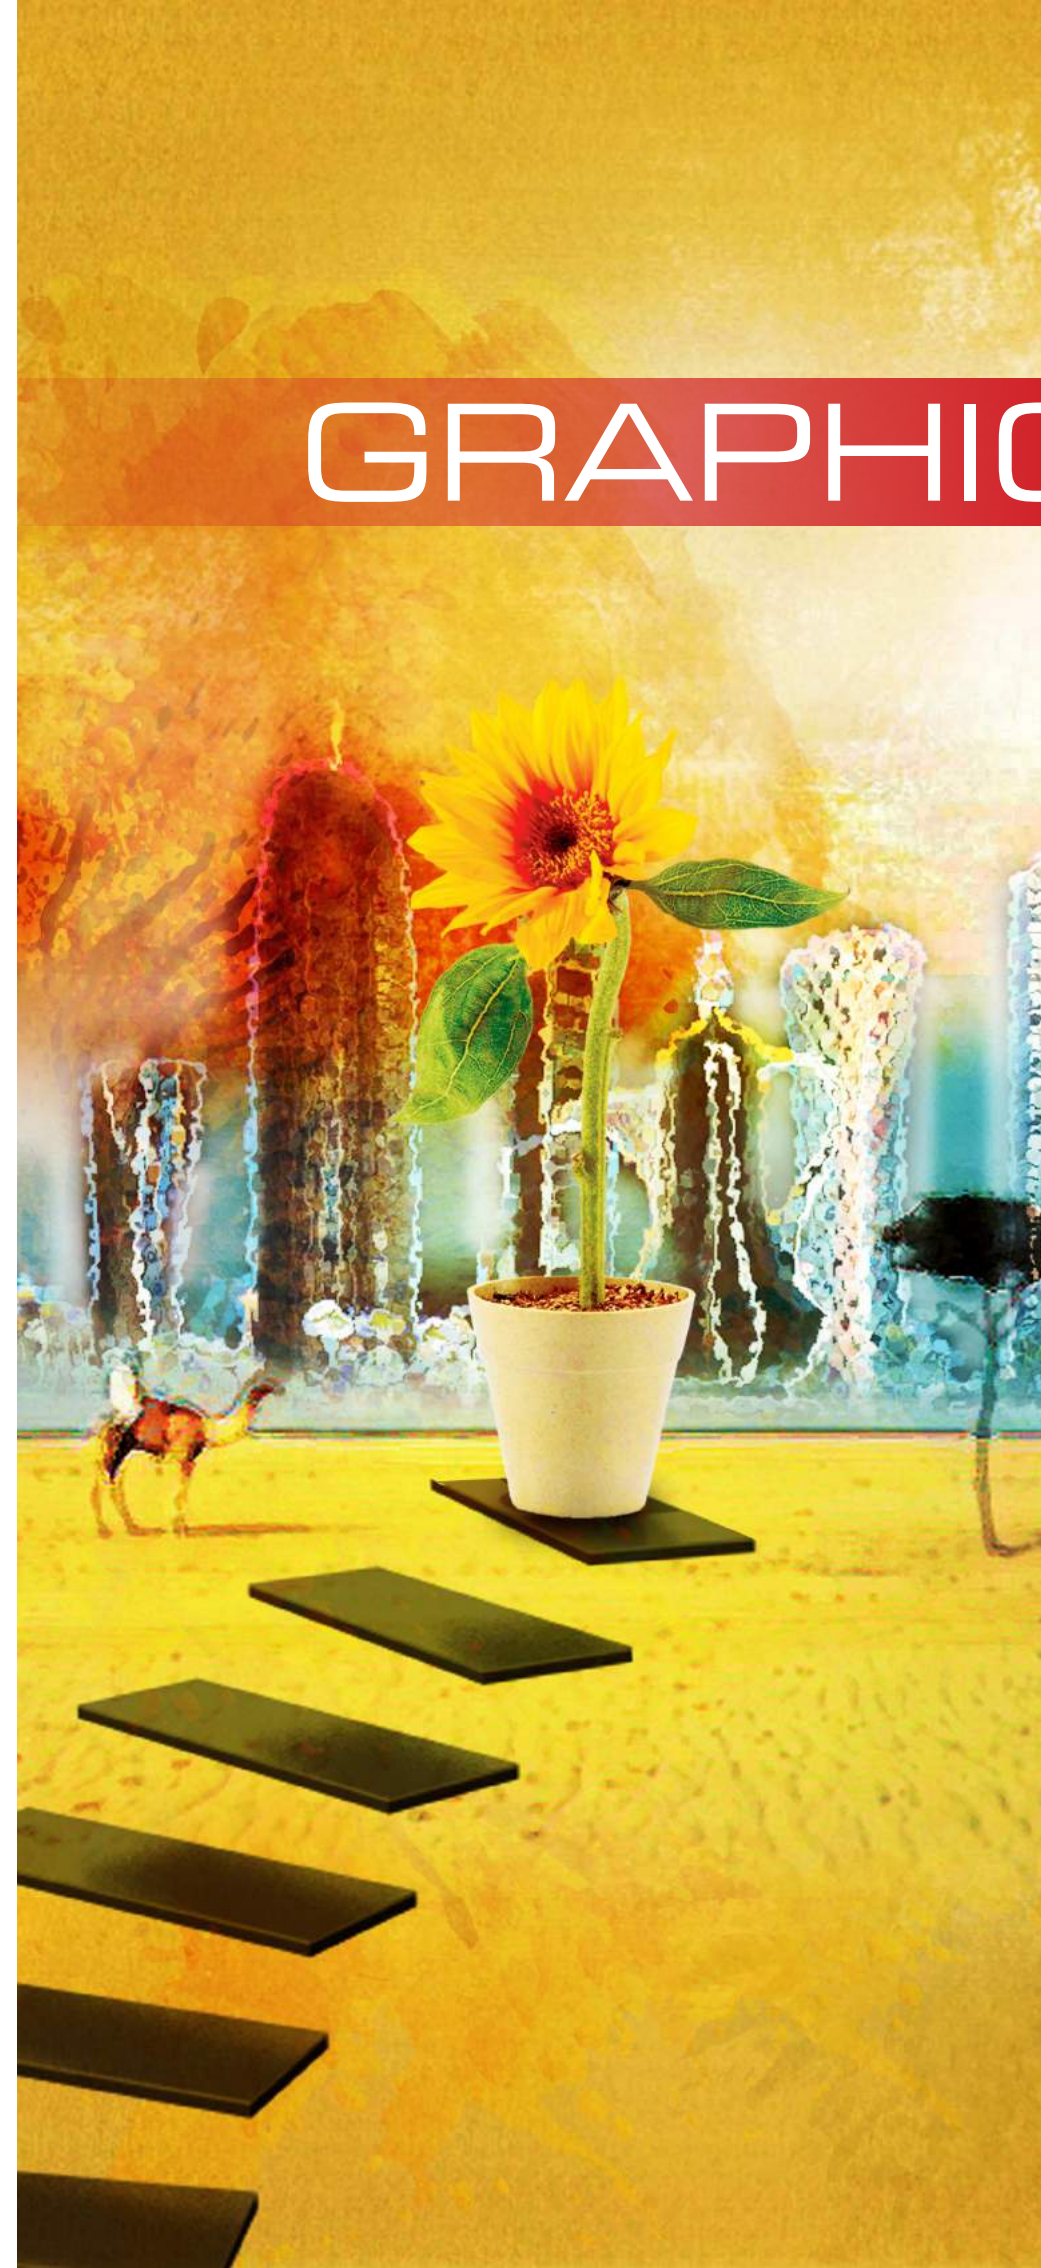

# GRAPHIC DESIGN *Division*

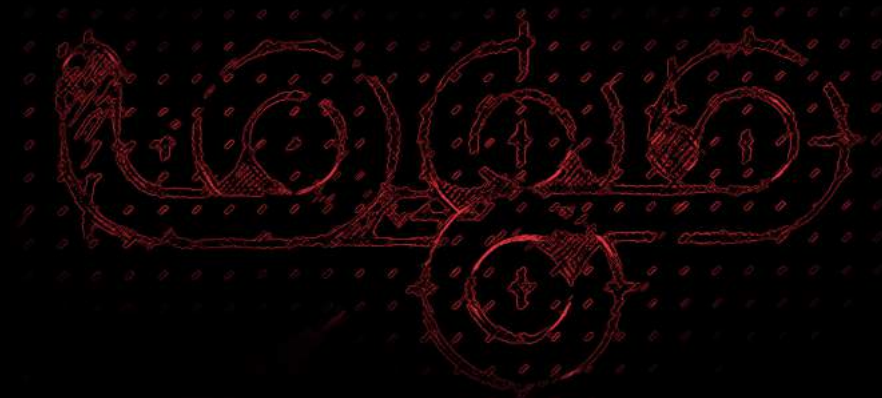

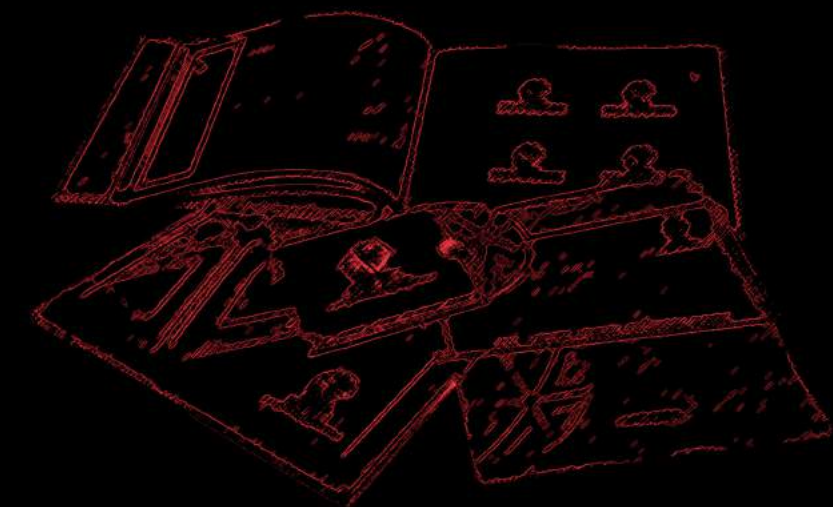

**G**raphic design is the methodology of visual communication, and problem-solving through the use of type, space and image. And it's considered as a medium of visual communication through designs and creative arts. Graphic designers always mend to introduce creative thoughts through designs or varieties of arts in which it conveys the message to viewers in all its easy ways. Graphic designing is applied in the creation of identity (logos and branding), publications (magazines, newspapers and books), print advertisements, posters, billboards, website signs and product packaging.

We the **"ELITE GRAPHIC DESIGNING"** team are here with full assist for the companies in order to design any stuffs regards.

## Corporate Identity

Letterheads, envelopes, business cards, presentation folders- they all say so much about your company. And when you are designed by ELITE, the message they give will be the right one.

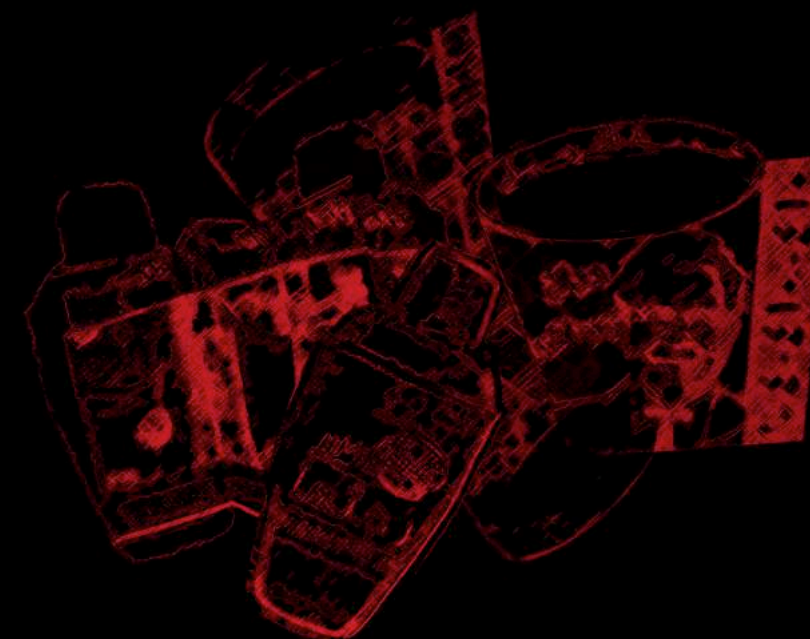

## Logos

A logo is a graphic representation of your company. Your company's logo should appear on every business card, letter, memo, sign, vehicle, web site, etc. That bears your company's name. Such an important element should be designed by a professional. The professionals at ELITE have the experience and talent needed to develop a logo that puts your company's best foot forward.

## Brochures

From simple tri-folds to elaborate corporate presentations, ELITE is here to design and produce your company brochure. We will develop the message, write the copy, design the layout, produce the brochure, print drafts, and oversee printing. You'll have a brochure you can be proud of, in no time. Words that capture the heart and mind in the market

## Flayers

The lowly flayer has often been looked down upon, but it continues to exist as a strong promotional tool for business. And when your fliers are designed by the professionals at ELITE, you'll get an even greater response, meaning more results where they count-at your cash register.

# PRINTING *Division*

**M**odern machines doing different type of printing in calibrated color and excellent finishing high programming e.g. (PS, PDF, TIFF, Encapsulated Postscript (a format for images or vector graphics)

Very high speed (100 sheets per min) Elite is using State of the Art Machine for Printing, Engraving and Lay-outing.

## Offset printing

Letterheads, envelopes, business cards, presentation folders - they all say so much about your company. And when you are designed by ELITE, the message they give will be the right one.

### Digital printing

Printing industries are increasingly adopting digital technologies to complement or replace analog ones. The terms digital and analog (or analogue) designate both types of signals for representing data and methods of print reproduction. Analog signals and computers rely on discontinuous patterned transmissions of discrete amounts of electricity of light to communicate data.

**W**e **ELITE** are the one of the best in the Qatar who provides the customized T-Shirts and Uniforms with printed & Embroidery identity in its better way, which colorised your companies identity among the public.

### Screen printing

There are 4 types in printing: letterpress, lithography, intaglio and stencil. Stencil is used for screen printing just like mimeograph. Mesh (screen) made of fabrics such as polyester is used for stencil. Screen is stretched and fixed to the frame. Resist is coated on the screen to fill up the meshes that are not necessary. Ink goes through the unfilled meshes and are transferred to the substrate.
